ACCOYA

Beautiful wooden structures without compromise

Accoya wooden structures deliver all the beauty of natural wood with none of the downsides. That means minimum upkeep and maximum kerb appeal.

From its superior insulation to lasting good looks, Accoya outperforms uPVC in every way. Not to mention being safer and healthier for both you and the environment. Whether you're looking for traditional or impressive architectural structures – the choice is yours.

Quality where it counts

PERFORMANCE

That saves you time and money

Low risk of shrinkage, swelling, jamming, insects and fungi damage, means future repair costs are kept to a minimum. Also, thanks to Accoya's superior thermal insulation, your structure will remain cool and continue performing even in extreme weather conditions.

50 YEAR WOOD WARRANTY

VERY LOW MAINTENANCE

NATURALLY INSULATING

FINISH

that stands the test of time

Easy to work with, Accoya is ideal for both traditional and contemporary structures. You can take your pick from a range of bespoke factory finishes, and thanks to its stability, your chosen coatings stay looking pristine for much longer than regular wood.

NATURAL WOOD

IDEAL FOR COATINGS

BESPOKE OPTIONS

SUSTAINABILITY

Unrivalled in the market

It is more environmentally friendly to use sustainably sourced Accoya than uPVC, aluminium and unsustainably sourced hardwood. Boasting not just a lower carbon footprint, Accoya wood actually helps remove CO₂ over its life cycle.

NON TOXIC

CARBON NEGATIVE OVER LIFECYCLE

SUSTAINABLY SOURCED

HIGHLY STABLE

tested and trusted

The Accoya Advantage:

- Reduced swelling and risk of jamming in humid conditions
- Better performance in all weathers
- Less frequent coatings maintenance

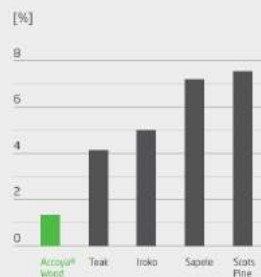

HIGHLY DURABLE

withstands the test of time

The Accoya Advantage:

- Structures will stand the test of time and not require replacement for at least 50 years
- Ideal for exposed / coastal applications
- Beauty, elegance and style – natural or coated

Accoya wood's superior dimensional stability (resistance to swelling and shrinkage) exceeds all commonly used species, including Teak, Sapele and Iroko. Accoya wood has been tested over prolonged periods in all types of weathering conditions - above ground, below ground and even in water - and has been proven to withstand even the toughest of external environments.

See for yourself: TRADA test demonstrates Accoya did not cup unlike other commonly used wood species' and Accoya's shrinkage % is much lower than the other wood species. identified here.

Accoya wood's durability (rot resistance) is Class 1, matching and far exceeding the performance of commonly used hardwoods for windows such as oak, iroko, sapele, utile and meranti.. Every batch of Accoya wood is tested after production to ensure that its durability can be guaranteed.

See for yourself; in our 20 year canal lining durability tests the results are remarkable.

OUTSTANDING COATINGS PERFORMANCE

Equals extended maintenance intervals

The Accoya Advantage:

Reduced swelling and risk of jamming in humid conditions

Better performance in all weathers

Less frequent coatings maintenance

9.5 Years Coatings Test

Accoya wood

Joinery Quality Nordic Pine

Accoya wood has shown improved coating lifetime performance with many types of coatings, resulting in extended maintenance intervals. The light colour of Accoya wood allows for a wide range of colour finishes. Due to its stability, Accoya wood significantly prolongs the life of film-forming coatings greatly extending maintenance regimes and enabling windows to remain looking pristine for many years. Accoya® wood is easier to coat, less preparation and sanding is required.

IMPROVED THERMAL PERFORMANCE

you can count on Accoya

Naturally insulating, your structure can lock in the warmth whilst remaining cool to touch all year round.

See for yourself:

In comparison to other standard wood types for joinery, Accoya thermal conductivity is:

- › Superior to softwood by 8%
- › Superior to hardwood by 30%
